

## HOME SCHOOL PROGRAM

For the general Dynamo Swim Club Group placement philosophy and FAQs, please [CLICK HERE](#)

The Dynamo Home School program is designed for athletes and families who participate in home schooling. This group will receive professional coaching and follow the overall Dynamo philosophy of long-term development. Unique practice times will be offered, that fall more in line with the home school experience. Additionally, a variety of options will be offered, allowing families and athletes to choose the experience they want.

For placement in the home school program, athletes must meet the requirements for team placement based on their age (either AG3 Green, AG2 Green, AG1 Green, or SR 3). Athletes that are evaluated into the Home School program must choose from one of those options. Please refer to the training group structure tab to become familiar with those requirements.
